Four Governors Invite Him to Speak in Their States in July.

Other Anti-Monopoly Speakers of Fame to Follow in His Wake.

Fires Will be Lighted Under Furnaces of Independent Refineries.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, June 18.—[Exclusive Dispatch.] While the aroused West is thrilling with preparation for the practical fight against the Standard Oil Company begun by the State of Kansas and the battle against is getting into full swing, the Governors of Missouri, Minnesota, Ne-braska and Kansas have invited Thomas W. Lawson to go to their States in July and address the peo-

ple.

Lawson has accepted their invitations and he will leave Boston to speak in Kansas July 7; Ottawa, July 8; Fairbury, Neb., July 11; St. Paul, Minn., July 13 or 13, and Albert Lea, Minn., July 14, as the guest of the different Governors.

Other anti-monopoly speakers of national reputation like Govs. Folk and LaFollette and District Attorney Jerome will make addresses before and after Lawson.

Meanwhile, fires will be lighted under the furnaces of the independent oil refineries in Kansas.

The following message gives some indication of the intense interest of the West in Lawson's trip:

"State of Minnescts, Executive Department, St. Pau,"

Fundamental Principles of New State Have Been Passed Upon by Chamber of Deputies—Two Points Likely to Arouse Argument.

(BY THE ASSOCIATED PRESS-P.M.) PARIS, June 18.-[By Atlantic Cable.] The question of the separa-tion of church and state is still oc-cupying practically the whole attendebate has lasted since March 20, but when it is considered that the reform means an utter reversal of the long-standing policy which regarded the church as a constituent part of the nation, it is not surprising that dis-cussion has been animated at times. However, the ardor of the debates seems to have died out since the passage of the first four sections, though the opponents of the measure continue to obstruct its passage to the best of their ability.

Despite this and the long interrup tions occasioned by the celebration of three religious festivals—Easter, Ascunsion and Pentecost — much has been accomplished. Sixteen sections of the total of thirty-seven have been adopted. The fundamental prin-ciples of the new enactment therein comprise—including the delicate quescomprise—including the delicate ques-tions declaring that the state does not give official recognition to religion suppression of the public worship budproblem of the disposal of church property, the latter forming one of the

A method of pensioning members of the clergy claiming long service has also been satisfactorily devised, and it only remains now to settle a system for the formation of the parochial bodies freshly brought into being for the direction of government control of the services. These two points probably will arouse considerable argument, but the committee having the measures in charge shows such willingness to accept reasonable suggestions that it is hoped the entire bill will pass through the chamber before the long vacation, which begins about a month hence.

Japanese statesmen here realize that their terms must be mapped out with extreme caution. Washington has not yet heard whether Marquis Ito's health will permit him to come as the ranking Japa uese plenipotentiary. The belief here is that Field Marshal Yamagata will be designated in Ito's place should the Marquis be unable to accept. It is expected that the conference wil convene here about the middle of

August. Pending the official and of the plenipotentiaries, little progress toward the arrangement of an armis tice is being had on either side. CHICAGO TROUBLE THING OF THE PAST IS PREDICTION.

BY THE ASSOCIATED PRESS-P.M.I

CHICAGO, June 18.—It was freely predicted tonight by both the members of the Employers' Association and la-bor leaders that the teamsters' strike will be a thing of the past before the end of the present week. According to one of the officials of the Chicago Fed-eration of Lubor, the strike will be called off entirely by the strikers them-

It developed at the meeting of the Federation of Labor today that there exists a great deal of dissatisfaction among the different unions. Several members of the strike committee who were present stated that they had never been consulted by President Shea and his lieutenants in any pro-

Shea and his lieutenants in any proposed move.
Charles Tull, colored, and two companions, who arrived here today from lowa, were mistaken for strike breakers at Forty-seventh street and Ashland avenue and were attacked by a crowd of strike sympathisers. Tull's companions escaped uninjured, but he was clubbed and kicked into unconsciousness and probably will die.

Several important witnesses, it was said tonight, will go before the grand jury tomorrow and tell what they know of the bribery charges in connection with labor troubles.

State's Attorney Healy said tonight that the testimony to be given this week would be of a sensational character and that a number of indictments against both employers and labor leaders would ensue.

Work and Find One Paying Victim.

Albert Harper, colored, told the police at 1 o'clock this morning that he had afforded fine picking for a couple of hold-up men at Third and Crocker streets a short time before.

Harper says he was safinering along Crocker street intending to board a car for his home, when two masked men "unbeknownst," appeared suddenly in his path and pointing two revolvers at his head, ordered him to throw up his hands. Not wishing to behold the pearly gates at that moment his hands shot heavenward and he allowed the hold-up men to go through his pockets and take \$35 in silver. The victim was able to give only a meager description of the highwaymen.

Los Angeles is going to be "wrote sp." as the heather say.

Three hundred and twenty-six editors and "editrises" struck the town at 2:30 resterday afternoon, with the avowed minute of the Angels into tons of copy and scattering it broadcast over some forty States of the Union.

Nine Pullman sleepers, a baggage car and a direr, and one of the heav-less engines of the Southern Pacific made up the train to bring these dele-gates from the twentieth annual con-vention of the National Editorial As-sociation from their meeting point at

Arrive Pasadena at 2 o'clock p. for carriage and auto drives abo principal points of interest, followed informal reception and refreshmen at Hotel Maryland, leaving Pasade at 5 o'clock to return to the city.

In the evening Warren Wilson, et or of the Journal, will receive the vitors at his beautiful home. No. 8 South Boyle street. Addresses of wome, an illumination, music and reshments will be some of the feature.

South Royle street. Addresses of welcome, an illumination, music and refreahments will be some of the features of the evening's entertainment.

Tuesday's programme will be arranged today, and will close with a reception by the Chamber of Commerce in its rooms at 8 o'clock, followed by the serving of light refreshments.

Wednesday morning at 8 o'clock the editors will leave for Portland, running special. They will remain at Santa Barbara, as the guests of the citizens of that city from noon until 8 o'clock in the evening. Thursday they will put in visiting Monterey and the Mission, arriving at Santa Cruz at 3 o'clock in the afternoon, Friday morning they will be given a "Bull's head" breakfast at the Big Trees, and will then proceed to San Francisco, where

been heard, they would have attracted no particular attention because owners of firearms frequently fire them in that vicinity.

The bodies were brought to Bresee Bros. morgue and today the Coroner will endeavor to solve the mystery surrounding the tragedy. But for the condition of the weapon the theory that the woman shot the man and then killed herself would be accepted without question. Everything points to that theory, because investigations last night disclosed the fact that Thaises lived in mortal fear of the woman and avoided her whenever he could do so. What there was behind the tragedy, what trouble between them, what possible crime, no one knows, and the whole truth may not be learned until the record of the man in the East has been investigated.

As a measure of caution, Sheriff White, while believing that the woman killed her husband and then herself, is not content to let the matter drop without a thorough investigation along lines suggested by the condition of the revolver. It would have been easy for any person after having shot down the man and woman to have placed the revolver near the woman's hand, but that they were the victims of another's crime is not considered probable.

The inquest will be held only at such a time as the Coroner can secure the attendance of all persons who may be found to know anything about the man, what his habits of life were and in whom he confided his troubles.

They slammed the door in the faces of questioners, and it was only when visited by detectives that they reluctantly told what they knew of the dead man.

He had roomed with them for some time, they said. He was a trusted employe of the Sun Drug Company, a skilled pharmacist, quiet of manner and steady in his habits, and had just been promoted to the important position of manager of the Pasadena branch store of that company.

What strange hold, out of the past, this woman could have had on Thaizes they could not even conjecture. Nor did the fact of having such a mystery harbored under their roof add at all to the calm and peace of mind of the household. The members of the family felt that they were living on the brink of a smoldering volcano. Tragedy was in the very air of the place, and an ominous foreboding held the all.

There has long been a vague under standing that when Germany next goes to war it will be with the United States. Still, if Great Britain and States. Still, if Great Britain and Frence want to tackle the Kaiser first, we have no serious objections. We are pretty blamed busy farming and making things, just now, and we'd just as Wef not do any fighting for some time

The talk about Mr. Taft being in line for the Chief Justiceship proves now to be all bosh. There is no way to stop be all bosh. There is no way to stop the talk about his being in line for a certain other place, however, which the same is at present occupied by a man whose initials are T. There appears to be no let-up on the pace set for our Ambassador to the Court of St. James. They are now preparing a dinner for him in London at which literature, art and science will be represented among the other usual concomitants. JAMES J. HILL ON RATE-MAKING. It has been said of James J. Hill, the builder of the Great Northern Railway without a government subsidy, that "he can talk railroads more understandingly than any other man alive." The reason that he is able to discourse so effectively on his fav-orite topic is, first, he is a man of had a longer, more varied, and more successful experience in building, op-erating and financing railroads than any other living man.

He recently appeared before the Interstate Commerce Committee ap-pointed by the Unifed States Senate to obtain testimony relative to regu-lation of railway rates. The clear-ness and pertinency of his replies, and the informing nature of his remarks, both surprised and delighted in committee. One of his statements was startling, showing as it ald that discriminating charges are not all on the side of the railroads. Duluth to Buffalo at 11/2 cents per bushel—carried a thousand miles, When that grain gets to the Harlem charge of 3 cents a hundred pounds more than it has cost to bring it from Duluth to Buffalo.

Senator Foraker asked: "Is that the when it comes to Harlem." He ex-pressed the opinion that a double track woad, built exclusively for freight, and therefore unhampered fic, would handle grain between the two points at a lower cost. Regarding our foreign commerce he remarked that Asia buys more goods from abroad than America de the United States supplies that con tinent with but 4.66 per cent. of the manufactured goods it imports. The official statistics also show that our country exports to South America only one-eighth of the goods it im-

stuffs, he said the amount for 1904 was more than one hundred millions less than for 1901, that, in fact, we shipped abroad more breadstuffs a quarter of a century ago than we did last year. Besides holding such a large proportion of our wheat at home we still had to import large quantities from Canada to keep our mills grinding. "We have"

case is strong. It is the duty of the public and of the Senate committee which represents the public, to occupy a judicial attitude in passing upon the claims for and against the railroads. Where the railroads are aggressive they should be curbed; but the physical limitations with which be permitted as will enable them to survive and extend their usefulness.

MANSLAUGHTER, OR MURDER? From the City of Chicago comes the announcement that "while the statute of limitations may bar indictnents for conspiracy to settle strikes by the use of money, it is said to be certain that quite a number of indict-ments for manslaughter will be returned against persons claimed to be responsible for the deaths resulting

rabile dictu!

During the teamsters' strike, se alshed to the State's Attorney, sixteen persons were killed as a direct result of the strike. The number of persons injured in the rioting will never be fully known. Some were slightly wounded, some seriously, and perhaps ome fatally. Few of the persons responsible for these mainings have been or will be punished. Many of the persons maimed were injured for life, while their assailants escaped who were arrested were let off with light fines, hardly worth mentioning But the cases of manslaughter

these embody the principal points to be considered.
What is manslaughter? What is

murder? Manslaughter, as defined by Blackstone, is "the unlawful killing of an-other without malice either express or implied; which may be either vol untarily, upon a sudden heat, or involuntarily, but in the commission of some unlawful act."

Murder, as defined by the same sound memory and discretion unlawfully keleth any reasonable creature . . . with malice aforethought, either express or implied."

Can the claim be reasonably urged victims in the Chicago strike did the killing "without malice"?. . In . many forth to kill; they were prepared to kill; they threatened, beforehand, kill; they threatened, beforehand, that they would kill; they had murder rate from Buffalo to Harlem?" Mr. in their hearts, and the implements Hill replied: "No sir. It is an arbitrary of murder in their hands: they used these implements for the purposes im

these implements for the purposes implied, and accomplished the results intended.

Technically, the union thugs and hired assassins who committed these crimes in Chicago may be guilty only of manslaughter. In every moral sense, they are guilty of murder. As a matter of abstract justice, those guilty of murder ought to be indicted for murder and punished for murder. As a matter of fact—having in , view the devious methods of Chicago "justice" as it is sdministered today—the triais of these men will probably result in verdicts of acquittal, in the majority of cases.

A GOOD "PURITY CAMPAIGN."

A GOOD "PURITY CAMPAIGN."

A GOOD "PURITY CAMPAIGN."

A The campaign of the local Board of Health against adulterated food products is a righteous campaign in behalf of purity. Ordinarily, when we speak of a "purity cempaign," we refer to a campaign for moral purity.

But purity of the foods and drinks

which we use is perhaps quite as essen-tial as purity of morals. In fact, it is possible that there is a closer relation between the two forms of purity than

his conviction of the merits of his nations of interests benefited by the case is strong. It is the duty of the adulteration of foods and drinks. That

"What have our students done? It is but eleven years since our first class graduated, and Pomona College has three representatives in the schools of Japan and two in the Philippines. The main who is responsible more than any other for administering the educational interests in the Philippines is a Pomona graduate, as is also the man who stands second in the work. The main thing the Americans are doing over there is getting the natives to school. Has England devoted herself to the education of her wards?

"We believe in the stiffest kind of education work. There are no namby pamby ideas among our faculty touching the dignity of intellectual work or intellectual giandards. In addition to the training of the mind we believe the training of the spirit. You may train a man's mind and make him a shrewder scoundrel unless you determine the direction of that training. The kind of Christian spirit that prevails at Pomona is straight out, openered the direction of the trainings and womanliness in their forms of expression regarding their religious life."

MALL cars have been operated the past week along the Main street line, as the larger ones are being repaired and painted. When the improvements are completed Main street will have the best rolling stock in the city. Work is being rushed on the Moneta avenue line, which will connect with Main street at the Jefferson junction. The poles are up and wires are strung along the route. The heaviest piece of work is that along the narrow stretch on South Main street from Jefferson to Fortieth street. In order to lay the track it was necessary to tear up the pavement for a

NO "AMATEURS" DESIRED HERE.

PORTING MEN SICK OF BOUTS SO MISCALLED.

Police Ought to Interfere and Pull House for Disorderly—Why is One Man Permitted to Run and Another Chased from Pillar to Post, Say Lovers of Fair Play.

Lovers of clean sport are thoroughly disgusted with the prostituting of the term "amateur" by one Arthur Crane, who last Friday night pulled off the first of a series of so-called "amateur boxing matches" in Turner Hall.

The bouts were in the main characterized by absolutely nothing of a redeeming nature, but were slugging matches pure and simple, in which boys of tender years pounded and mauled each other into insensibility or physical exhaustion, arousing all the baser passions of an audience which, in considerable part, was made up of the veritable part, was made up of the veritable rift-raff of humanity; the scum of Somoratown and the sweepings of places that decent men habitaually avoid—"low brows" and "rough necks," Several notorious "macs" were sitting prominently on the stage, and the attendance was in marked distinction to the ranks of business and professiomal men who are seen at the monthly gatherings of the Century Club to watch the mills between trained and accientific men pulled off by Tom McCarey.

formance as that of last week is permitted.

A well-known local sporting man, whose place of business is less than a hundred yards from Second and Spring streets, expresses the sentiments of many when he said:

"These clumsy stugging bees will hurt clean boxing if they are allowed to go on, as many people cannot discriminate between clever sparring and two-hunded rough-and-tumble awinging. There is a holler made when Tom Mc-Carey tries to put up a pavilion somewhere, but Crane is permitted to buttin' and open up on suspicion of doing the right thing. They can't stop it too soon for me. I went Friday night and laughed some at a few of the funny things I saw, but that feeling turned to disgust pretty quick. I saw a lot of pople I wouldn't see anywhere else; some fellows whose money isn't good in a decent saloon, and I don't propose to sit alongside any such again if I know myself. The police ought to pull the place for a disorderly house. It was worse than a beer garden."

VALUABLE ECONOMY TEST.
Probably nothing which has ocurred in recent years has excited curred in recent years has excited quite as much interest as the economy test of the Long Island Automobile Club, which was won by Dr. C. B. Parker, in a Franklin car, at an expense of 80% cents per passenger for the two hundred-mile round trip from Brooklyn to Southampton and return. Every user of an automobile is anxious to know the actual expense of touring and in the economy test that expense is learned once and for all time. The comparison between 80% cents per passenger, for a two hundred-mile trip as compared to \$1.65 per round trip per passenger shows so great a margin that the public is certain to pay attention and notice the difference. certain to pay attention.

ONE OF FASTEST OF BASKETBALL TEAMS

Some people, who have objected to basketball for girls upon the grounds that it is a game which cannot be played without an impetuosity and roughness not considered "ladylike," have been converted by witnessing the play of the Pasadena team of Throop Polytechnic, which has made a fine record for the season just closed, and impressed critical spectators with the fact that basketball is a game of agility and skill and not an occasion for rough house.

The Throop team is not a heavy one, and is distinguished rather for swift play and cat-like quickness than strength. The girls in their chic white flannel suits with "Throop" consplutious across the front of the blouse, in glaring yellow letters, present a fetching appearance. During the winter's play they have scored some notable victories, experienced some defents, but where they have met teams in their own class have made an admirable showing.

There is no more popular team in Southern California. Miss Sutton of Pasadena All Stars says: "They are the nicest girls to play against because they are always fair, always polite and length of Throop is: Lillian Grant long in the star team some anxious moments, especially upon a memorable afternoon when the score atood 13 to 16.

Bt. Vincent's College will signalize the fortieth anniversary of its existence by doing a thing it has never done before. Saturday evening, at a meeting of the board of trustees, three honomary degrees were conferred apponing the citizens of Los Angeles. One of them is the vicar-general and domestic prelate of His Holiness Plus X. Rt. Rev. Patrick Harnett, on whom is conterred the degree of LL. D., another is Hon. Isidore B. Dockweiler, who already holds the degree of A.M. conferred upon his graduation from St. Vincent's and who now receives the title of LL. M. The third honorary degree is conferred upon one outside the Catholic church—Dr. Waiter Lindley—who receives the degree of A. M. While it is not an unusual thing, yet is a distinct honor for one soutside the church to receive such distinguished acceptation, which indicates not only the breadth of the institution which confers it, but the deservedness of the sam who receives it.

The degrees will be formally con-

ferred this evening at the commencement exercises of the college when a
dozen or more students will be graduated. Bishop T. J. Conaty, D.D., J.
U.D., will preside, and Very Rev. J. S.
Glass, C.M., D.D., and president of the
board of trustees of St. Vincent's College, will confer the degrees, award
the diplomas and distribute the premiums won by the students. James P.
Hogan, B.S., will deliver an oration on
"Education in the Present Century;"
Charles C. Conroy, M.S., will read an
essay on "Catholic Authors and Literature," and William L. Quinn will speak
on "Higher Education and the American Catholic." The exercises will conclude with an address by Dr. Lindley,
St. Vincent's has, in the forty years

In 1871 he came to the United States, In 1871 he came to the United States, and at once affiliated with the Methodist Episcopal Church, became a member of the New Hampshire Conference, and entered the New Hampshire Conference, seminary as a student, graduating from that institution in 1872. He then entered the Boson University and School of Theology, where he graduated in 1878 with the degree of Doctor of Divinity. During these years of student life he continued his preaching, at points near the schools attended; and after finishing his theological course he held some of the most important charges of the New Hampshire Conference until 1882.

He then removed to Iowa and hecame a member of the Northwesiern lowa Conference. came a member of the Northwesian lowa Conference. His first charge was Clear Lake, where he was stationed two years, and he was then made presiding elder of the Fort Dodge district, which position he held for six years. This was considerably in the nature of pioneer work, as the State at that time was rapidly developing. During these years Dr. Walker more than doubled the number of charges in his district and brought about great development of the church interests.

His last charge was Morningside Church, Sioux City, the church for the Methodist dollege neighborhood. There the disease which finally caused his death, parnlysis, first affected him, and he was finally forced to abandon active work. In the hope of benefiting his health he removed to Los Angeles a year ago, and since that time the family has been located at No. 1689 West Thirty-sixth street.

Dr. Walker at once became a member of the University Methodist Church, and although incapacitated from any active work, he attended the church services regularly until two weeks ago. He has been confined to his bed only a little over a week; but he realized that his end was near, and faced it with perfect confidence.

Dr. Walker was married in 1578 to Emma B. Kelley, at Franklin Falls, N. H. The widow and two children survive him, Mrs. D. H. Trimble, wife of the Methodist minister at Marathon, lowa, and Ernest Walker, who is with his mother in this city. He also leaves a sister, Mrs. Olin J. Kelley of Franklin Falls, N. R.

HENSEY FUNERAL

First Death Among Members of Roose-velt Command, United Spanish War Veterans.

The funeral of William Hensey, who was killed last Monday by being overcome with gas in a cesspool which he was excavating, took place yesterday afternoon, under the auspices of Roosevelt Command, Nq. 9, United Spanish War Veterans, of which he had been a member.

Rooseveit Command, of which he had been a member.

This was the first death since the local command was instituted, and the funeral was carried out in strict military style. The command was represented by about ninety members, and the funeral march was played by the Veteran Fife and Drum Corps. The dring squad from the Seventh Regiment fired the salute. The ritualistic service of the order was used, conducted by Theodore L. Syvertson, commander, and an address was made by Rev. R. S. Owen. Music was rendered by a quartette composed of S. Hare, F. Rose, Miss Addie Case and Miss Lulu Bryant.

The interment was made in the plot set aside for Roosevelt Command, located just north of the G. A. R. plot at Rosedale cemetery.

PROBABLY FATAL ACCIDENT TO A SANTA ANA MAN.

J. Donnegan, a Night Watchman, Jumps from Moving Train, Falls Upon the Track and Both Legs are so Terribly Mangled That Their Amputation is Necessary.

SANTA ANA, June 18.—J. Donnegan of North Logan street, aged about 80 fell under the trucks of a passenger coach near the Southern Pacific depot this afternoon and both his legs were so badly crushed that they had to be amputated. Donnegan was a passen-ger on the 3:30 o'clock train from New-

ter tank. A short distance above the depot he jumped, but upon striking the ground lost his footing and both legs went under the wheels.

Both feet were terribly mangled. The left foot was almost severed at the ankle, and the right leg was broken and crushed up to the thigh. At the hospital the left leg was amputated below the knee, and the right leg at the thigh. The attending surgeons say Donnegan cannot recover.

The injured man was night watchman at the Pendleton lumber yard. He lives with a wife and widowed daughter and has long been in feeble health.

JAPANESE CELEBRATION.

A rousing celebration in commemoration of the recent Japanese naval and laind victories was held last night at the spacious Winfersburg Armory Hall in the peatlands. More than 300 Japanese residents of this county and as many more interested American were present, crowding the hall to its limit. Decorations of American and Japanese national colors prevailed. Surmounting the flag pole was the American flag and below this a large Japanese emblem, while from streamers, running from the pole to the ground, were dozens of flags of the two nations placed alternately. In front of the entrance was a large triumphal arch, gay with Japanese colors and bearing numerous legends of the nation's victories. The whole scene was lighted with a profusion of Japanese lanterns.

The programme commenced at dark with the discharge of fireworks, continuing for more than an hour. Then the scene shifted to the interior of the hall, where Rev. Terasawa, the Japanese clergyman permanently located in the peatlands, acted as chairman of the evening, giving a brief introductory address in both languages explaining the cause of the gathering. The Japanese national anthem. "Kimigayo," was sung by the three hundred little brown men. Mr. Nishimura playing the melody upon the organ. Mr. Hidaka read the original proclamation of the Missedo which declared hostilities between Russia and Japan, and this was translated for the benefit of the Americang present. An address in Japanese hands and Japan, and this was translated for the benefit of the Americang present. An address in Japanese by Mr. Tanakas followed, reciting the English tongue was made by Mr. Ilwata, and Rev. Mr. Singer of the Westminster Methodist Church, representing the American part of the audience, offered his commendations.

The second part of the programme was devoted to national Japanese dances, including a dainty step by two little girls and some intricate sword plays. An exhibition was also given of the art of

BURNED BY ELECTRIC BOLT.

DOLGEVILLE, June 17.—W. P. Finnerty, secretary of the Toilerday Manufacturing Company, considers himself quite fortunate to be alive today. Yesterday, while showing a purchaser a sample piece of ten-foot black pipe in the rear of the company's factory, Mr. Finnerty raised the pipe to a perpendicular position, when it came in contact with an electric wire running from the trained and accasion to in the evening, and a passing it suddendered for Rice was distorted to the same, but of the vicious anisotte of the company's factory, Mr. Finnerty raised the pipe to a perpendicular position, when it came in contact with an electric wire running from the powerhouse to the factory.

The current ran down the pipe and through the body of Mr. Finnerty, who was thrown to the ground. Electric fire passed off at his extremities, burning his hands and feet badly. The right and left foot were much more severely burned than the opposite members. He was taken to his home and a physician summoned, who dressed the revere burns and found that Mr. Finnerty had sustained no serious internal injuries. He will not be confined to his home but a few days, but it will be some time before he can use his burned shands and foot again.

It is said that if the pipe which he held in his hands had not been heavily coated with the usual black asphaltum, which deadened the force of the electric current, Mr. Finnerty would not have survived the contact.

SERMON TO GRADUATES. SERMON TO GRADUATES.
HOLLYWOOD, June 18.—The Memorial Methodist Episoopal Church was filled tonight with students and patrons of the Union High School. The occasion was the annual sermon which was delivered by Dr. G. F. Bovard, president of the University of Southern California. Rev. C. R. Weldon, Rev. J. H. Hay, Rev. E. A. Stellar and Dr. Will A. Knighten were present and amisted in the exercises. Special music was rendered by the Memorial Church choir.

Prof. S. A. Chambers of Berkeley arrived in town yesterday and is at the Van Nuys Brondway.

M. Lehman, manager of the Orpheum circuit, arrived from Kansas City yes-terday. He is registered at the Hollen-beck.

ASK COUNCIL FOR ELECTION.

Sixth Ward Voters Want to be Represented.

Democrats Hot After the Seat Resigned by Howton.

Petition Will be Filed With City Clerk Today.

The initial step will be taken today o secure for the Sixth Ward the representation in the City Council to which the city charter entities it, and to choose a successor to "Spook" Howton, who recently tendered his resignation, tried to take it back and then discovered that he had unintentionaly burned his bridges behind him, and

could not retreat.

A petition will be filed with the City Clerk today, asking that a special election be called to elect a Councilmian from Ward 6. The instrument will come from the Democrats, about sixty voters of the Sixth Ward having signed it. It will recite the fact that Howton resigned the office to which he was elected and that therefore the ward is without proper representation. By the latter clause the petitioners do not intentionally notice the well-known fact that the ward has not been really represented since Howton took his seat. Cintinuing, the petition will state that in the opinion of leading attorneys, Howton's resignation is in full force and effect, thereby creating a vacancy and in conclusion the petitioners will request the City Council to take such action as may be necessary for the calling of a special election in the ward.

The petition will probably be referred by the Council to the City Attorney, for an opinion as to the legal aspect of the matter. There is no doubt what the report of the City Attorney will be, it having been unofficially stated in his department that Howton's resignation can not be recalled and that a special election must be held if the Sixth Ward is to be represented in the manner contemplated by the charter. Howton may try to make a gallery play and oppose the calling of an election, but, under the city Council cannot consistently refuse to give one of the largest wards in the city legal representation, and it is therefore practically certain that the election will be held.

Howton will be a candidate to succeed himself and in the race he will have the support of the ward and look closely after its interests. Whether the Republicans would will endeavor to select a man who, if elected, would be representative cityes.

The special election will not be a repution of the Dawonort-Howton contest, The same questions will not enter fine the question of spook Councilman, provided the Democratic nominee is a repution of the Question of spook Councilman or no-spook Councilm

Defined Spiritualism.

Dr. Alexander McIvor-Tyndall addressed a large audience in Blanchard Hall last eventing on the subject of "Spiritualism." The lecturer gave credit to the disciples of the philosophy of spiritualism, for much of the interest and the knowledge displayed at present in the various lness of advanced thought. He said that the popular conception of spiritualism, associating it always with slate writing, table rapping and other material manifestations of an invisible force, was unfair to real spiritualism. The one he styled the "old spiritualism" and the "new" he and was under various disguises such as "New Thought." "Mental Science." "Christian Science" and the latest developments of biology. He asserted that the last century spiritualists paved the way for these new discoveries which are but a broader conception of truth.

Dr. Robert McIntyre preached in the big tabernacle on the exposition grounds at Portland, Or., yesterday. A service is held there every Sunday afternoon and sermons are preached by representative men of various denominations from all over the country who are invited by the managers of the exposition. Dr. McIntyre's pulpit was supplied both morning and evening by Rev. A. W. Adkinson, presiding elder of Los Angeles district. At the close of the service yesterday morning an appeal was made for assistance in building a church at Huntington Park. The lots have been donated and the congregation want to build a church costing 4500 of which 3000 is already provided. In answer to the appeal 31000 was raised by subscription from the congregation. The young pastor of the Huntington Park Church, Rev. Wm. Lusk, grew up in the First Methodist Church from boyhood.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier; especially Sunday real estate announcements, which in order to be printed must be in the office not later than 16 o'clock Saturday nights. The printling of all real estate matter, including advertisements, in a part by firelf on Sundays involves somewhat hower press work, making it essential, in order to get the paper out on time, to stop receiving real estate ads at 16 o'c ock Saturday nights. Dealers will comfer a favor on The Times office if they will turn in Sunday copy on Fridays, when possible; or at least a part of it, and the balance early on Saturdays. Sunday "Want" ads will still be received by phone and over the counter until 11 o'clock Saturday nights.

The ladies' rest room on the top floor of the new wing of The Times' Building is open daily from 8 to 5. Ladies from town or country will find this a convenient place to write, rest or reaf. Stationery novoided for correspondence. Both 'phones available. Take elevator in business office. All are welcome.

Current.

The power that gives you life and motion is the nerve force, or nerve fluid, located in the nerve cells of the brain, and sent out through the nerves to the various organs.

If you are tired, nervous, irritable, cannot sleep; have headache, feel stuffy, dull and melancholy, or have neuralgia, rheumatism, backache, periodical pains, indigestion, dyspepsia, stomach trouble, or the kidneys and liver are inactive, your life-current is weak.

Power-producing fuel is needed; something to increase nerve energy—strengthen the nerves.
